

a lead element; and

a trailing element interconnected by a polymeric member to the lead element, the trailing element adapted for attachment to the detachment apparatus;

the lead element and the trailing element comprising coils;

where the lead element is structured to cause occlusion of a vessel.

46. The intravascular device of claim 45, in which the coils comprise helical coils.

REMARKS

Claims 1-41 have been amended to make them easier to read. In this regard, "at least one" and "said at least one" have been replaced with "a," and "said" has been replaced with "the." Further, in order to adequately protect applicant's invention, new claims 42-46 have been added. Thus, upon entry of the First Preliminary Amendment adding claims 22-41 and this Second Preliminary Amendment, claims 1-46 will be pending. Support for the present amendments and added claims appears throughout the specification of the patent, including the figures and in the claims originally filed.

Please charge Deposit Account No. 50-1212/UTSC:533USR1 the amount of \$288.00 to cover the additional claims fee. Further, the Commissioner is authorized to charge any additional fees under 37 C.F.R. 1.16 or 1.17 that may be required, or credit any overpayment, to Deposit Account No. 50-1212/UTSC:533USR1.

Please date stamp and return the enclosed postcard to evidence receipt of this document.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Mark T. Garrett". The signature is fluid and cursive, with the first name "Mark" being more prominent.

Mark T. Garrett
